OUR SERVICES

CRYPTO MINING

With a 2,000-square-foot warehouse in Singapore and a secondary facility in Hong Kong, DFEX Investment Company is equipped to handle large crypto-mining operations.

Unlike paper money, Bitcoin and other cryptocurrencies are produced mathematically and held digitally. The people who voluntarily offer their computing power to secure these cryptocurrency networks are called miners. Cryptocurrencies don't have a central government or other so-called middlemen that decide about the future of the system.

CRYPTO TRADING

Cryptocurrencies (Crypto) are virtual monies that are built on a Blockchain that typically use a decentralized network to carry out secure financial transactions. Crypto Trading involves speculating on its price movements via a spread betting or CFD trading account or buying and selling the underlying coins via an exchange. With Grant's investment plan, you are provided the benefits of trading in Crypto without owing any risk.

REAL ESTATE
